### y in Cape County.

This industry, to the inauguration of which our people have been looking with deep interest, is now an accomplished fact. In it our city has another addition to its sources of revenue and prosperity. On Friday evening of last week the fires were kindled under the first kiln of goods, and this week, by way of results, the Company has drawn, ready for the market, some of the best goods in their several lines that we have seen. The contents of this first kiln are of the classes of goods known in the trade as Rockingham ware, and flower pots. Other lines of wares will follow, and within a few days the Cape Pottery Company's goods will have a recognized name and place among the markets of the country. An advantage possesed by this over other factories of its kind is that its supplies are conveniently at hand, in the greatest abundance. One class of the clay employed is found immediately upon the factory grounds, while the other quality used is found in inexhaustible quantities but a f w miles from our city. In the case of the East Liverpool and other Eastern factories, the greater part of the material consumed is transported from our county. The saving to the Cape Company in this formidable item of transportation will leave them a handsome margin for competition and a remunerative profit.

The Company has its work in-first class shape, under the superintendency of Mr. Geo. W. Ellis, who has amply demonstrated that he is a master of his art. The company officers are: Christ. Hoffmeister, President; Geo. W. Ellis, Superintendent; Will. H. Wheeler,

ecretary; Dr. S. S. Harris, Treasurer. Mr. Ellis states that with the pres- selling ent capacity of the factory he will be able to turn out \$35,000 worth of goods. annually .- Courier.
